ABOUT BRAND

The **Maeselle** brand comes from the heart of Spain – Barcelona.

This is where innovative formulas are created to care for
a healthy and radiant skin.

A brand created by a woman and for women.

Strong, independent, knowing themselves and their needs.

That's the Maeselle brand. Effective and excellent.

It will help to focus on difficult problems such as discoloration,
loss of density and renewal and revitalization of the particularly
needy and sensitive eye area.

THE PRODUCT RANGE INCLUDES

- Nucleolift
- Shine Eyes Solution
- Shine Eyes Re-newer
- Pigment Preciser Solution
- Pigment Preciser Expert
- Pigment Preciser Home

NUCLEOLIFT

Nucleolift is an innovative biostimulator, which has unique properties lifting and firming the skin. The effectiveness of action owes to the synergistic action of unique ingredients. They penetrate into the deep layers of the skin, slow down the biological process of its aging and clearly rejuvenate. The skin is visibly rejuvenated by improving firmness, tightness and light filling.

SHINE EYES

Maeselle Shine Eyes is a comprehensive program to improve the condition of the skin around the eyes. Provides a younger look thanks to omni-directional, instantaneous and long-term regeneration.

It consists of two stages:

- Shine Eyes Re-newer
- Shine Eyes Solution

SHINE EYES RE-NEVER

Maeselle Shine Eyes Re-newer: stage I

Controlled skin renewal that increases regeneration capacity, smoothes facial lines and wrinkles. In addition, thanks to the content of lactic acid, it moisturizes and strengthens the delicate, thin and sensitive eye area, while phytic acid improves its color and at the same time smoothes the structure. Ascorbic acid neutralizes the action of free radicals, brightens and supports skin reconstruction. Immediately after application, the appearance of the delicate skin around the eyes improves. Shine Eyes Re-newer makes it smoother, more flexible and visibly brighter and fresher.

Indications

- Prevention of aging
- Bruising of the eye area
- Signs of photoaging and aging
 - Dehydrated skin • Thin skin
- Skin grayscale and devoid of glow
 - Skin not very elastic and tight

treatment area

SHINE EYES SOLUTION

Maeselle Shine Eyes Solution: stage II

Multidirectional stimulation of skin cells aimed at effectively improving their natural functions. Based on a multifunctional complex amino acids glycine and proline, which stimulates natural growth cells and activates repair processes in the skin. Acid Addition lipoic neutralizes free radicals and increases effectiveness action of glutajone, raising its level in the cell. Complement of this ingredient is crucial in the care of aging skin because it performs many important functions. Reduces wrinkles, improves the texture of the skin, increases its elasticity, thickens it and tightens and illuminates. Mannitol in synergy with hyaluronic acid protect the skin from water loss by optimizing the level of hydration.

The active ingredients contained in the Shine Eyes Solution allow controlled skin regeneration. They give almost instant effect moisturizing, smoothing, brightening and firming, comprehensively improving the appearance of the delicate skin around the eyes.

Indications

- Prophylaxis of aging • Signs of aging and photoaging
 - Bruising of the eye area • Thin skin
 - Skin dehydrated and malnourished
 - Greyed skin, devoid of glow
 - The skin is not very elastic and tight
- Dry skin after treatments and pharmacological treatment
